Press Release

Kenexis Announces Formation of UAE Division

Engineering consulting company focusing on engineered safeguards forms a UAE-based Subsidiary

Columbus, February 1, 2010: Kenexis Consulting Corporation (Kenexis) today announced the formation and initiation of operations, Kenexis Consulting DMCC, in Dubai, United Arab Emirates. Through this expansion, Kenexis is extending their engineering consulting services into the GCC (Gulf Cooperation Council) market in order to facilitate execution of projects in the region. "Oil & Gas customers in the GCC region will benefit from Kenexis DMCC by having full-time staff in the region to manage projects, to coordinate training seminars, and to promote good engineering practices in the areas of SIS, Fire & Gas, Alarm Systems, and Industrial Control System Security. This region has long been underserved in the areas of critical control system engineering services," said Kevin Mitchell, Vice President of Kenexis.

Kenexis Consulting Corporation, the parent company of Kenexis Consulting DMCC is a U.S. Corporation that was founded by Edward Marszal and Kevin Mitchell. Kenexis Consulting DMCC was formed in Dubai and can be contacted at the address shown below. The office in Dubai will be headed by Srinivasan Ganesan, PE. He has significant experience in the refining industry both in the United States and India. His role will be to market, sell and execute Kenexis services in the Gulf States including Abu Dhabi, Bahrain, Dubai, Qatar and Saudi Arabia.

Kenexis DMCC
Level 41, Emirates Tower
P.O. Box 31303
Dubai UAE
Attention: Srinivasan Ganesan
